Introduction 8

Chapter 1 – The Basics 9

Understanding Project Management 9

Launching Microsoft Project 10

The Project Environment 11

Creating a New Project 15

Entering Project Information 16

Creating a Project Calendar 20

Saving and Closing a Project 24

Opening an Existing Project 27

Hiding the Ribbon 29

Setting Project Options 29

Using Tell Me to Obtain Help 31

Chapter 2 - Working with Tasks 33

Entering Tasks 33

Editing Tasks 34

Rearranging Tasks 35

Inserting and Deleting Tasks 37

Adding a Project Summary Task 38

Outlining Tasks 40

Adding a Recurring Task 42

Displaying WBS Codes 44

Customizing WBS Codes 45

Chapter 3 - Linking & Scheduling Tasks 49

About Task Relationships	49
Linking Tasks	50
Adding Lead Time and Lag Time	52
Changing Task Dependency	53
Splitting Tasks	55
Setting Task Type	57
Setting Task Constraints	59
Setting Milestone Tasks	62
Setting Task Deadlines	63
Inspecting a Task	65
Working in Network Diagram View	66

Chapter 4 - Resources & Costs 68

Entering Resources	68
Creating a Resource Calendar	70
Assigning Resources to Tasks	73
Filtering Resources	75
Effort-Driven Scheduling	77
Entering Resource Costs	78
Entering Fixed Costs	80
Using the Cost Table	81

Chapter 5 - Working with Views 83

Working in Calendar View	83
Formatting a Gantt Chart	85
Using More Views	85
Using Split Views	87
Using Task Usage & Resource Usage Views	88
Sorting Tasks & Resources	89
Using AutoFilters	91

Using Tables 94

Printing a View 96

Chapter 6 - Finalizing the Plan 99

Identifying Slack in a Project 100

Saving a Baseline Plan 102

Saving an Interim Plan 104

Overallocated Resources 105

Leveling Overallocated Resources 107

Chapter 7 - Updating & Tracking Projects 110

Updating Task Progress 110

Updating Work Performed 112

Manually Updating Costs 113

Rescheduling Uncompleted Tasks 114

Filtering Tasks 116

Displaying Variances 119

Viewing Progress Lines 120

Chapter 8 - Working with Data from Other Applications 123

Copying and Pasting to Other Applications 123

Importing a Task List 124

Creating an Import Map 128

Exporting Project Data 131

Using the Copy Picture Command 132

Chapter 9 - Working with Reports 135

Printing a View as a Report 135

Viewing Standard Reports 136

Customizing a Report 137

Modifying Report Formatting 139

Modifying a Header and a Footer	140
Inserting a Graphic into a Report	142
Adjusting Report Margins	144
Printing a Report	145
Creating Visual Reports	146
Work with Visual Report Templates	148

Chapter 10 - Managing Multiple Projects 152

Creating a Resource Pool	152
Linking Projects to a Resource Pool	152
Updating Resource Pool Information	154
Consolidating Projects	154
Linking Tasks between Projects	156
Sharing Elements between Projects	157
Creating a Project Plan Template	159

Chapter 11 - Formatting a Project File 163

Formatting Bar Styles	163
Changing Bar Styles	165
Formatting Timescales	166
Creating Custom Fields	168
Creating Custom Tables	171
Creating Custom Views	174
Creating Custom Groups	175
Using Drawing Tools	178
Creating a Macro	180
Running a Macro	182
